

Mark Belton went on leave with pay in 2022. However, per research he has been working as a consultant since December 2022 Biohabitats and Throwe Environment. I'm not sure this is Kosher one of the companies Charles County utilized to identify/assess and rank stormwater issues around Charles County. Also, Throwe Environment website Mr. Belton is listed as a director.

Since day one Commissioner Bowling has been a critic and said it today during the vote to accept the charter from said committee and via social media from his three plus accounts. Mr. Bowling, your postings are very dangerous and need to stop.

---

Commissioner Bowling has said publicly he is proud of his 20 plus years working in Prince George County and endorsed its county executive for the United States Senate seat. However, May 27<sup>th</sup> in one of your rants a poster replied to the monkeys, June 11<sup>th</sup> ghetto fabulous and July 11<sup>th</sup> the colored people. Commissioner Bowling, you quote Dr. King, Former POTUS Kennedy and reference yourself as a selfless servant to denounce that nonsense and behavior (board line racism).

Lastly, our tax dollars pay for firehouses, equipment etc. Yet, there are zero rules on what they can post on signs on county land. AN email from the acting county administrator. Deb Hall yesterday, while we do fund them, we don't control them, and their leadership is separate from ours. Basically, they get millions of dollars to run their family enterprises. Yet, folks who often speak in front of the body utter corruption. Personally, that organization might as well be under the likes of the Genovese, Gambino and Chicago Outfit crime families. July 18<sup>th</sup> one of its members said publicly "well scum bag I hope you never need us".
