My name is Kalijah Fingers and I live in the
Parklands Community in White Plains, MD.

I want the Commissioners to rescind Lennar's right to build
and to start their next project in Charles County until they address
and resolve the issues affecting both our community as a whole
and my home specifically. Lennar's proposed new developments
~~are~~ moving too quickly and they need to remedy the issues with
their existing projects first.
Do not grant Lennar the waivers, stop their work orders, and
do not release the bond. Lennar's performance in this community
has been extremely disappointing.

My specific issues are: (A) my lawn, which is hay-like,
coarse underfoot, and clusters of weeds (back and front).
(B) My lights flicker in my downstairs master bath-
room and the garage.

(1)

My drive way has a hairline crack that is spreading and I can access the surface beneath my driveway, easily moving my hand deep into hot surface.
