My home is 2625 Shiloh Church Road. I plan to sell my house in the near future. I am for replacing our system with new infrastructure but it would be considered a hardship for me and anyone else trying to sell their house if the payment does not transfer over to the next homeowner. The next homeowner gets the benefit of the county water while I as a previous homeowner would be expected to pay for something I will not get to use. If I am expected to pay off the amount or keep paying payments when selling my house I will lose money on the sale. If I try to recoup the money in the sale no one will buy the house because it will be over priced. Please consider letting the infrastructure improvement payments be transferable. Thank You.
