Resource - a stock or supply of money, materials, staff, and other assets that can be drawn on by a person or organization in order to function effectively. Police - the civil force of a national or local government, responsible for the prevention and detection of crime and the maintenance of public order. 1. Both of these words do not belong together 2. Responsible for the prevention and detection of crime and the maintenance of public order. So, Resource Officers are in a nut shall seeking our kids as suspects to crime or disorderly conduct. By the inherent nature of their job and their aggressive nature to perform prevention and detection of a crime, by being in our schools it presents a police state environment. Wearing a uniform, carrying a gun and backing it up with authoritative police training that breed a spirit of intimidation and fear. Please take the police out of our school and school administrators stand up and administrate and call on the police when needed. They can also police outside of the school when and if needed.
