Our schools are already way too overcrowded. Not to mention with the future of COVID how will we ever be able to get all of our current students back in the school with the COVID precautions. I want my kids in school NOW and with current precautions, I do not see how a class of 25 elementary school-age kids will be able to attend school within the small classroom they have now. Also, 25 students to 1 teacher is already a horrible ratio. Plus I have heard that Charles County does not have enough teachers already or school bus drivers. Please consider what you are doing to our future while planning on building attentional housing. Overcrowded schools and unthinkable student-to-teacher ratios will only damage our children's education, lower school safety, and make Charles County a place no one will want to move to raise a family because the school system, which is already low in the state will be even lower!!!! Would YOU want your child in the Charles Country school system? Now how about if you bring in another 10,000+ students? Yeah, me either.....
