My concern, like many, is the lack of planning for school seats as these changes are made. I am sure you will hear from others about how this Will impact an already overcrowded and overburdened school system. In the past when I have discussed this with officials from the county the general response I have received is school seats are a state or a board of Ed problem. As far as I can tell this is your opportunity to join them in being part of a solution to the problem. You can continue with policies that overburden the school system and then sit back and say "well we did our job now it's time for the board of Ed and the state to do their's and clean up the mess we created." I would like to hear from each and every commissioner in their own words how they feel this will impact schools. If you do, in fact, believe this will overburden our already overcrowded school system I would like it on record that you believe fixing the results of your action in supporting this measure are the responsibility of the state or the board of education. This is the equivalent of someone destroying your house and then leaving you to clean up the mess! On top of this I would like to say we want

to be proud of the place we call home. We want people to move here BECAUSE of our schools not despite them! Use this opportunity to make a smart choice for the future. Don't leave a mess for someone else to clean up!
