I find it grossly negligent on the county government level to even be considering school allocations, when county government cannot fully fund Charles County Public schools. Already, many of our schools are aging and over crowded. It took a pandemic to show the inadequacy of ventilation systems to demonstrate that buildings are failing to stay healthy and now to allocate school seats that school are literally unable to provide is abhorrent. I suggest that the county government should develop a task force including CCPS as a key stakeholder to study and create a common sense plan that would not further overburden our school system. We need positive change. As we come out of this dark time and move towards the future we need to work together to develop a strong and healthy community. This cannot happen if a vital part of the community continues to be abused.
