Dear Charles County Commissioners,

RE: Task Force for Adequate Public Facilities and School Allocation Policy Proposal.

This matter is of critical importance to the future of Charles County. There are a variety of issues and very different visions. In making such a momentous decision, it is important to air out issues based on evidence, and the airing needs to be public.

That is why I believe that a task force is essential for a result beneficial to the County. The public should be engaged and given every opportunity to understand how County policy may affect them.

Thanks.
