Comment

The multi use turf fields for Charles County will not only allow athletes to participate in their sports when the grass fields would not be accessible due to water saturation. Throughout the life of the turf fields, the amount of money invested in the fields, will be recovered as the artificial turf fields require very little maintenance. The grass does not need to be cut, the fields won't require new lines put down every time the grass is cut. Reseeding and fertilizers would not be required.
