Multi Use synthetic turf fields are needed in our community to provide our Youth athletes the ability to participate in sport more often through the year without weather hindering so many possibilities. They are overall safer for young athletes to play on in most conditions. Many studies show that, If properly managed they will pay for themselves over the life of the field. The ability they will provide to our county to host more activities and events throughout the year will improve local economy. Please strongly consider moving forward with the installation of these fields so we can also show our surrounding Counties and communities how Great Charles County is. Thank You Nick Catena
