We in Queen Anne's County have looked to Charles Countys establishment of the Mattawoman conservation district as a model and milestone in enlightened planning and zoning. Understanding that a watershed is a natural system that does not obey planning and zoning distinctions is a big step forward in the fight to preserve our natural environment for ourselves and future generations. The proposed amendment would be a regrettable step backwards from that achievement. Do not forsake your leadership for the sake of short term economic gain, if there is in fact, even that to be gained.
