Against approving the airport's expansion, because you know that Climate Change will increase flooding from stormwater runoff downstream. Why replace a protected wetlands (pervious surface) with A costly Airport (impervious surface) project, that in a short time will become flooded with every thunderstorm, hurricane and river rise. Look at NOAA predictions on increased heave flooding from heavy downpours. This airport expansion could put lives at risk trying to land on a flooded landing strip. Lost Investment, loss of life and loss of insurance for damaged buildings, damaged parked vehicles and damaged expensive planes. Do not vote for this change in the Protected Status of Mattawoman Watershed.
