I am distressed that this change to the comprehensive Charles County Watershed plan may be passed. Please refer to the commission that said we need protection for Mattawoman Creek. Don't make pollution worse just to industrialize our beautiful watershed. PLEASE. Our society is placing so much stress on the environment as it is. Please don't add any further heat, run-off, heavy metals (lead, etc), impervious surfaces, cutting down of trees, to the already stressed Mattawoman watershed by voting for changing the protections in place. Thank-you for considering the best science for this watershed and voting NO to this proposal.
