I am opposed to this amendment which would be extremely harmful to my family, my community, the value of my property, and my faith in the integrity of Charles County policy. Furthermore, I believe it is racially discriminatory. My property has WCD designation. My property is within the change area. I was not consulted about this dramatic change. This amendment would remove that designation. I am firmly opposed to such a zoning change. The zoning change would facilitate expansion of Maryland Airport. This would result in more noise from flights; more lead pollution; and dramatically lower property values. The roads are totally inadequate for the sort of traffic this project would bring. It would be a threat to my children's health. I would never have bought this property had I known that it was planned to be adjacent to an industrial zone. Why was I not given notice? Not only is this

proposed Amendment directly harmful to my family, it is also harmful to my community. I don't know what kind of outreach the County has done, but whatever it was, it must not have been designed to be easily noticed by the community. It is unconscionable to target my community for this polluting action. The Watershed Conservation District was enacted to save Mattawoman Creek. The Amendment is to benefit people with no connection to this watershed, at the expense to those of us who live here. This Amendment must not go forward. Enclosed is a map showing the location of my property.
