I have lived in this neighborhood for 30 years. I have volunteered to assist with managing the water utility we have here for at least the past 12. We have lost one of the 2 wells we have, had major repairs on the water lines and the pumphouse. This past summer and including today, Sep. 15, we have had 5 repairs on the lines from the main to the houses and on the main itself. The pipes are corroding and deteriorating at an increased and alarming pace. We NEED this new infrastructure. We have been working towards this goal for over 10 years. We don't have the resources to keep paying for costly repairs over and over again. We can't respond to the issues in the manner that the county could as they have the resources to do so. I've attached a photo of the piece of the main that was replaced today. You can see the deterioration and the hole that was the source of the leak. This type of pipe is no longer

available and our repairman had to come up with a solution so that we could have water. He's doing a good job, but he is also frustrated. Please pass this petition.
