Because this forum is limiting and restrictive, I will make more than one submission. I, Alex Winter, live in Accokeek, MD near Charles County. I lived in Charles County for more than 30 years. I still own property in Charles County. For decades I have participated in Charles County land use issues and other community events and have many social ties with people in Charles County, many of which I have maintained for decades. I paddle on Mattawoman Creek and enjoy the recreational opportunities that the nature in Charles County affords. I am President of the Mattawoman Watershed Society. Our organization opposes the Amendment for many reasons, some of which are: it increases exposure to lead pollution to the community near the airport, including the particularly susceptible school children at Matthew Henson Middle School and J. C. Parks Elementary school; it is an end run around

the forthcoming Bryans Road Subarea Plan, trying to present a fait accompli. It is an attack on the Watershed Conservation District, which is legislation responding to urgent warning from state agencies about the fate of Mattawoman Creek and its watershed if Charles County continues its unsound zoning practices, which constitute a transfer of the public wealth to a few privileged individuals. I have many files to attach. I will see whether your system allows me to attach all of them.
