I disagree with a mask mandate from any governing authority. It should not be a decision made by the government on what I decide to do with my health. The science has proven that covid is less contagious then originally thought to be. The science is there, we are not listening to it. Masks should be a choice of society when not feeling well and don't want to spread to others. Not mandated by every corporation because of government influence because of false and fear filled statistics.
