It is abhorrent for a government entity of ELECTED persons to enforce a medical product on every citizens of its jurisdiction. In my everyday life I practice personal responsibility. I do my part to stay safe on the roads while operating a large vehicle. I practice effective hygiene practices such as washing my hands with soap and water when needed. I DO NOT need or want a group of power hungry, ignorant people telling me to cover my face when I see no imminent danger to myself or my family. The actions of the Charles County commissioners and Dr. Abney are absolutely disgusting and inappropriate. It is evident that these ELECTED persons have forgotten that they actually work for the general population and clearly want to be fired from their jobs. This "state of emergency" and "health emergency" are jokes of the highest order. Listen to the people and let us live our lives in peace.
