When I travel to neighboring counties and other states, its amazing how much more happy people are that are not required to wear masks. It is surreal that we are approaching 2022 and this county continues to force its citizens to wear face coverings that have proven to be in effective in preventing the spread of COVID or any other communicable diseases. The governor has ended the State of emergency. It is terrifying that your administration wants to enact a law that would force masking indefinitely. You are severely impacting your constituents mental health and changing the developmental progress of your 0-5 year old constituents. Please allow the citizens of Charles county make the best decisions for their families.
