Wearing or not wearing a mask should be a personal choice for individuals to make themselves, and government (whether local, state, or federal) has NO RIGHT to be deciding it for everyone. Who do you think you are? The United States is supposed to be a free country, and this is a GROSS infringement on people's individual freedom. This is the type of thing that a dictatorship does, and you should be ashamed of yourselves for trying to force your will onto everyone. You have NO RIGHT to do this. And this is leaving aside the fact that you are NOT saving any lives with this policy. The fact that people can breathe while wearing these masks means that they allow air to pass through. So what makes you or anyone else think that the virus doesn't also pass through? The virus is an airborne molecule that these masks were never designed to protect against. Rather, they were designed to protect against the much larger dust particles. Have you or anyone else actually conducted a scientific study to test the extent to which these masks stop the COVID virus from passing through? No, of course you haven't. There is absolutely no evidence that the masks protect anyone from COVID, and you have NO basis for justifying this moronic, knee-jerk-reaction policy. All these masks do is make certain gullible people feel like they are protecting themselves, because it gives them something tangible to do. But in reality, they do absolutely

nothing to protect you. If someone wants to wear a mask, they are already free to do it. But other people shouldn't have to, and it is **WRONG** to force it on them.
