Unconstitutional. Not based on actual science. Free people make choices, if you want to wear a mask then great. If you don't that is your choice. The highest underlying cause for getting Covid is obesity. The health authority should be working on high risk groups. Not trying to mask people who decide not to mask. In years to come we will see our children with do many health issues caused by this mask wearing. Your immune system has to be working in order to protect you. The masks stop that from happening.
