The mandatory mask mandate has hurt businesses including mine. I rely on community events to meet prospective clients. I have had to go to neighboring counties for these events as I had one cancel directly citing the mandate as reason since their insurance company would not cover them. Then another large multi-day event saw a reduction in attendees by more than half as compared to previous years. Each missed opportunity to meet new clients reduces my potential income. It has been claimed that the mask mandate has not harmed any businesses financially but this is incorrect. I have lost thousands of dollars in revenue due to the cancellation of events and the hesitancy of Charles county residents to participate in these events.
