As a resident of Charles County, I specifically shop in surrounding Counties whenever possible, that do not require masks, and many, many others are doing the same. Your choices to extend and amend, and continue to control the County is depleting businesses financially and crushing our County. I challenge you to think that if you personally owned a business, and it's ALL that supported your family, to think long and hard if MORE restrictions would help or hinder how you feed and support your family. Truth is, it would hinder. Lastly, multiple surrounding Counties have no mask mandates, there is no invisible line that "blocks" this virus from staying out of Charles County, or blocks this virus from staying within the Counties that do not require masks. The mandate is completely ineffective, as our COVID-19 stats have shown, mask mandates do not help make things better. Following the science means following the statistics. Mask mandates have NOT changed our numbers in any way.
