I am against making the mask mandate into a law. Most of country right now does not have a mask mandate, instead they allow their citizens to choose to wear one. It should be a choice and not a law. Try being a business owner (I am an iceberg of a family owned business) with employees that are going in and out of freezers. The masks are breeding bacteria do to the change of temperature and the condensation that is building up on the mask. It is also a safety issue with employees who wear glasses. Their job is to be in and out of freezer spaces, and the masks are making their jobs unsafe due to the condensation building up on their glasses and the bacteria growing in their masks. It is also really hard for our driver delivering products into other business. Please allow citizens to choose what is best for them, and their businesses.
