I am whole heartedly opposed to the county commissioners being able to enact mask mandates at any time. I feel very strongly that individuals and business owners should have the right to make the decisions for themselves about how to avoid, curb, reduce their risks for infection from anything. The government should not have the right to control individuals and private businesses so completely. For the good of the citizens and the businesses here in Charles County, PLEASE do not allow this overarching control for the commissioners. No mask mandate, no vaccine mandate, no closures, no more infringing upon our rights as citizens. We must respect people's ability to make choices for themselves and their families based on their individual preferences and comforts. It absolutely should not be the government's job to make such personal decisions for the citizens.
