I own a business in Waldorf. I have watched dozens of my customers drop their membership because of the Charles county mask mandate. While most of my staff still continues to wear a mask( their choice) we don't need more government overreach by making mask mandates something that will be turned on and off like a light switch. I don't believe any government agency ( elected officials ) should have that much power. It's nothing more than a power grab by certain county commissioners. Let Charles county citizens decide on their own. If you feel like a mask protects you then you should wear one. But don't tell others that don't share your views that they have to as well.
