People should be free to breathe. Masks don't work, well known fact. The illness is coming from getting the vaccines. The vaccines cause a weakening of the immune system. Please find out and research the ingredients in the major vaccines. There should be no mandates for vaccines or for masks. It is not scientifically valid. Some doctors will say anything for a price. How much do doctors and hospitals get per vaccinated person?? Should be eye opening. This is not being handled correctly. Look at the states that are not masked. Look at places where people have not been vaccinated en masse. Just another way to try to take our freedoms away by demanding masking. And it is true that businesses will suffer.
