As a lifetime resident who shops, eats, works, receives medical care, and other amenities in county it is important to me to know those in our local government are being thoughtful about the risks to the community at large. I am glad that officials are in favor of all people acting with personal responsibility & consideration for others. Even more that even if you question the effectiveness of masks or transmission of the virus, that those who can are in favor of an action for the chance of a positive change instead of no action in fear there will be no change at all. When you hear a cough or sneeze and the person is wearing a mask. You don't know whose life you may have spared... or from what.
