The best time I have had recently out in the community is giggling with my daughter in the grocery store seeing her face light up and seeing her smile over something small. This is only because the mask mandate was rescinded. If the mask mandate is reinstated, I will absolutely ship out of county. As a teacher in this county, it's have seen student morale and teacher morale decline and the required masks being one of the contributing factors. I teach early intervention intervention and our youngest children are falling behind in language skills, social skills, and behavior. Wearing masks at school sends the message that the school environment schools is unsafe. A county mandate directly effects the decisions of the school district to rescind masks. If these mask mandates continue without reasonable and attainable metrics to remove them, I will consider moving out of this county. OVER IT! And have been for a year!
