Good Day to you, I work in Charles County and travel there frequently for shopping and entertainment. I am absolutely against making masks a law that would be punishable by monetary consequences and further actions after multiple "offenses". Wearing a mask should be an option for those who would like to wear them. The vaccine is available to those who wish to partake, but to mandate and to make a law about what a person must wear in order to be apart of a thriving community is irresponsible. America was established for religious freedoms that have grown to include other freedoms as states in the bill of rights. To mandate what someone must wear in public is unconstitutional. If people wish to wear a mask, great. If not, others have the option to wear a mask and partake in the vaccine to protect themselves. We cannot dictate how people want to handle their health plans. Members of our society should be concentrating on what they want to do for their own health and not focus on their neighbors. Thank you for your time.
