The perpetual overreach and mandate-style ruling of the County by the Board of Commissioners (the Board) must stop. While claiming emergency power, the Board continues to congregate power over the people that voted them in. The Board continually claims science, yet when it comes to revenue, science is no longer present. Example: County pools are opened with a mask mandate while one is out of the pool, yet in the pool one can be touching another without a mask. I wonder who gets money from rec-passes, and from Schools being fully functional?? Also, the Board refuses to allow for religious exemptions for wearing a mask or getting the vaccine. This is a clear and blatant violation of the Civil Rights Act of 1964 Title II, III, and VII. We the People are tired of being treated like people with no rights by a Board that seemingly has no real-world connection to the destruction it is perpetrating on this County. Maryland saw 122 fatalities due to drunk driving in 2018. Drinking is a personal action which can and does directly affect others around you. Yet the County Board passed no mandates in response to 122 peoples' deaths. No liquor stores were shut down, and no County-wide mandate affecting the personal lives of every individual was issued. If the Board, really cared about people as much as it says it does, then why is it not using its 'legal' power of mandates to try to slow ALL kinds of deaths and not just Covid deaths? I request that no further mask mandates be issued in the County either for County workers or the normal populace. Just because some see a health issue differently than the Board see it, does not give the Board authority to force those persons to comply with their inconsistent safety measures.
